- **What if there is a college where students do not have to pay for books or exam fees?**
- **What if there is a college where students only have to pay for their class fees, and the college pays the rest?**

Growth Institute's Pay as you Go Program© helps students to get a quality tertiary education at an affordable price.

I. How does the Pay as you Go Program work?

Most colleges insist that students must register for as many subjects in a year as possible.

At Growth Institute, we believe that students must have the freedom to register to as many subjects as they can afford. We refuse to create a situation where students are put in a position where they end up with owing large amounts of money to the college.

The Pay as you Go Program allows students to register for a minimum of one subject at a time.

The cost per subject is R 3 772-00 and it includes:

1. VAT

2. BOOKS

3. EXAM FEES

Once you have passed the exam for that, your record is credited with that subject. Depending on the program that you registered for, you will have between nine months and two years to complete the subjects in that specific program.

All your class fees must be paid within ten months after you registered. We will expect you to make a monthly payment as shown in the Available Programs section of this document.

YOUR FIRST PAYMENT MUST BE MADE AT THE TIME THAT YOU REGISTER. Thereafter, you will be placed on a monthly payment plan and you will have TEN MONTHS to pay for your studies. The Available Programs section shows the monthly instalment for each of our programs.

II. What you need to know about classes and exams

You must come to class one day a week at time and dates that are on your time table.

The college follow a modular approach. This means that you will focus on one subject for eight weeks, after which you will be enrolled to write and exam for that specific subject.

If you pass the exam, you are done with that subject and you will not write another exam for that subject.

III. What happens if you fail the exam?

If you fail the exam, you will have one opportunity to re-write.

If you fail the exam a second time, you will have to re-register for that subject and attend another eight weeks of classes before you get a third and final exam opportunity.

IV. More about your qualification

Did you know that you the **Pay as you Go Program** is designed in such a way that will receive a qualification at the end of each study year?

This means if you cannot afford to pay for the next year's studies, you do not walk away with nothing. If you passed all your subjects for the year, you will receive an actual qualification from the relevant awarding body or awarding bodies.

Depending on the program you have registered for, your qualifications are awarded by either:

1. SETA (All Financial Accounting, Business Management, Entrepreneurship and Administration programs), or by
2. The Confederation of Tourism as Hospitality.

The qualifications that you will obtain through the **Pay as you Go Program** are all endorsed by international professional bodies.
